BYOT

Student & Parent Agreement

BYOT Student Agreement

The use of technology to provide educational material is not a necessity but a privilege. A student does not have the right to use his or her laptop, cell phone or other electronic device while at school, unless used at appropriate times. When abused, privileges will be taken away. When respected, they will benefit the learning environment as a whole.

Students and parents/guardians participating in BYOT must adhere to the Student Code of Conduct, particularly Internet Acceptable Use and Internet Safety. Furthermore, **the student must agree to the following conditions:**

- The student takes full responsibility for his or her technology device. The school is not responsible for the security of student-owned technology.
- The technology must be in silent mode while on school campuses and while riding school buses.
- The technology may not be used to cheat on assignments or tests, or for non-instructional purposes.
- The student accesses only files on the computer or internet sites which are relevant to the classroom curriculum.
- The student complies with teachers' request to shut down the computer or close the screen.
- The student acknowledges that the school's network filters will be applied to one's connection to the internet and will not attempt to bypass them.
- The student understands that bringing on premises or infecting the network with a Virus, Trojan, or program designed to damage, alter, destroy, or provide access to unauthorized data or information is in violation of the **Acceptable Use Policy** and will result in disciplinary actions.
- The student realizes that processing or accessing information on school property related to "hacking", altering, or bypassing network security policies is in violation of the **Acceptable Use Policy** and will result in disciplinary actions.
- The school has the right to collect and examine any device that is suspected of causing problems or was the source of an attack or virus infection.
- The school has the right to install the Meraki Agent on student devices in order to obtain security information from student devices. This allows the school to be CIPA compliant.
- The student realizes that printing from personal technology devices will not be possible at school.

I understand and will abide by the above policy and guidelines. I further understand that any violation is unethical and may result in the loss of my network and/or laptop privileges as well as other disciplinary action.
